# Risk & Return

## Seminar series 2019

TICKET PRICE **\$59.90**  
Profits go to the NZ Safety Council

### The three dreaded topics of business... ACC, Worksafe, and Health & Safety

All of them can be confusing and even more so with the recent legislative changes. They definitely cost you a lot of money but do you know what you are actually paying for? Statistics show that most businesses are over paying on their ACC levies.

The Risk & Return Seminar Series is about giving you

the tips and insights to work these to your advantage. We show you how you can save 41% savings on your ACC levies. We show you what CHASNZ will be launching later this year – it's going to be big! There will be plenty of giveaways that you can use in your business.

**Seminar will last for 2 hours and cover four areas. There will be Q & A for each session**

#### What ACC doesn't tell you: learn how you can reduce your levies by 41%, manage claims, and more.

- Learn how to legally lower your levies
- Learn about common mistakes employers make with work place claims
- Learn how to avoid medical certificates
- How to make ACC work for you

**Speaker Martin Wouters – Manage Group**

#### Overlapping Duties (the 3 C's): why are Worksafe using Sec 34 of the legislation on most prosecutions...

- Learn what the 3 C's are and how to manage them
- Manage both your upstream (i.e. main contractors) and your downstream (i.e. subbies)

**Speaker Kevin Thompson – NZSC**

#### Totika: The new standard for health and safety pre-qualification in NZ. Commencing with Construction and to be rolled out industry wide.

- What is it, how will it work and who is involved
- When will it be rolled out
- What does it mean to your business including your upstream and downstream

**Speaker: Chris Alderson - CHASNZ**

#### Workplace Serious Harm or Death: the things no text book can tell you – the emotions, stress, anxiety... the costs. what really happens...

- What really happens...
- As an owner what can I expect
- What are the ongoing issues and challenges
- Solicitors and insurance policies
- Prosecution

**Speaker: Panel Discussion (Kevin, Marty, ?)**

## Speaker Bios

### **Chris Alderson** - CEO at CHASNZ

Chris brings more than 30 years of experience leading business transformation across global and New Zealand based organisations. His passion for Health and Safety transformation drives Chris to lead and implement global Health and Safety programmes across many of New Zealand's leading organisations, including Fonterra, and in his capacity as the National Consulting Health and Safety lead at PwC.

Chris is now leading Health and Safety in the Construction sector through Construction Health and Safety New Zealand (CHASNZ). Chris has industry and technical experience which spans across construction, supply chain, operations, the dairy industry, aviation, logistics, information systems, finance and safety.

Chris is a key strategic leader with a strong people focus, having led and developed teams to achieve high levels of success, and is a recognised industry leader in safety-critical operations, where management of critical risk is vital to any business success.

### **Jon Harper-Slade** - GM Skills & Competency, CHASNZ

Jon is a Chartered Member of the Institute of Occupational Safety and Health and a Certified Member of the New Zealand Institute of Safety Management.

A passion for helping people has motivated Jon through a varied career in Health and Safety in the UK, the Middle East and Africa. Jon has worked mainly in the Construction sector for both client and constructor organisations.

Previously GM, Construction Safety Council, Jon is now GM Skills & Competency for CHASNZ and also leads ConstructSafe, the Health and Safety competency assessment scheme for construction.

### **Kevin Thompson** - Chief Executive, New Zealand Safety Council

Kevin has been a member of the New Zealand Safety Council since 2003, a NZSC Registered Safety Professional since 2005, and in 2019 approved as a HASANZ Registered Health and Safety Professional. He currently serves on the HASANZ Board of Governance and the HASANZ sub committee for competency profiles. He is a very experienced professional in the safety and training disciplines since 1997, and 12 years working as the National Manager, Strategy and Risk for an Australasian Construction company. Since 2014 he has worked in the public sector as a professional safety consultant.

### **Martin Wouters** - Managing Director – Manage Group

Martin's motivation in making sure employers are treated fairly and equitably with Government compliance is well known. He has travelled the length of NZ on far too many occasions sharing his message and solutions. This Risk & Return series is another means of doing that.

Consistent feedback is that Martin and the team make compliance interesting. Never short of a story and definitely never short of a solution where you can save money.

Asked to describe Manage Group, Martin says "You can think of us as the Jack Russell of the compliance world. We're small (though growing rapidly) and we're mighty. We're loyal and tenacious, but we're also not afraid to create our own path or challenge the rules so to speak with Government Agencies.

We have the enthusiasm of a start-up company, and the professional experience of an old established law firm.

We are not box tickers, nor the computer-says-no types. We are proactive solution-finding types. We want you to walk away from us in a better position than when you came to us."
