Licensed Flooring Practitioner Feedback Form

Name:

Company:

Email address:

Feedback

1. What skills, knowledge and professional behaviours would you expect from a person holding a LFP ticket?

2. What skills, knowledge and professional behaviours would you expect someone to already have before being able to enter the LFP system?

3. Do we want levels to the system depending on the services being offered, and what should they be?

4. How long should a person be able to hold their LFP ticket before being recertified?

5. What should be required as part of the continued professional development (CPD) process?

6. Should someone be required to be a FloorNZ member before they can be part of the LFP process and if not should there be a different pricing structure for non-members?
